

# Telecare helping people at home

Telecare can help you if you have difficulty moving around memory problems or feel vulnerable in your home

- Do you or the person you care for -
- Have falls in your home?
  - Suffer dizzy spells?
  - Have a medical condition causing loss of consciousness or awareness?
  - Require medication reminders at regular times?
  - Leave the house at inappropriate times e.g. during the night?
  - Forget about lit cigarettes or the cooker?
  - Leave taps on?
  - Feel vulnerable to unexpected visitors?

- If so this Telecare equipment could help:-
- Fall detector, Bed sensor, Chair sensor. Occupancy sensor etc.
  - Epilepsy, Enuresis sensor, Bed/Chair Occupancy sensor
  - Medication reminder/pill dispenser
  - Bed/Chair occupancy sensors, PIR's, Pressure mats
  - Smoke detector, Carbon Monoxide sensor
  - Flood detector
  - Bogus caller alert, PIR, Pull cord
